Chapter 8 Kit Materials Guide

(version 2 - 01/12/22)

PROUD TO BE A MEMBER OF

The Retroreflective Equipment Manufacturers Association

We have R3B compliant and R3B non-compliant materials available

Chapter 8 kits from Fleet ID are manufactured from the highest quality retroreflective materials. We have a choice to suit every usage - whether you need R3B compliant or non-compliant Chapter 8 kits we have a material option for you.

3M Diamond Grade Microprismatic Red (4092) R3B With 3M Saturn Fluorescent Yellow Non-Reflective

3M™ Diamond Grade™ DG3 Reflective Sheeting Series 4000 features highly-efficient micro prismatic optics that return light to drivers under a diverse set of nighttime viewing geometries encountered by the driving public. 7 years warranty.

Nikkalite Crystal Grade Microprismatic CVF Red (92805) R3B with Hi-Scal Fluorescent Yellow Non-Reflective

Nikkalite Crystal Grade Microprismatic CVF Red (92805) R3B is an R3B compliant prismatic retroreflective film. This is supplied to you as an edge sealed chevron kit, to eliminate water and dirt compromising the panels.

Aura 191 Metallised Red (0191T-02) R3B With Aura 139 Fluorescent Yellow Non Reflective

Aura Optical Systems' AURA® 191T Metalized Prismatic Grade Sheeting is a microprismatic retroreflective sheeting with up to 5-years durability for vehicle markings, construction work zone signing, traffic signing, delineators, and similar applications.

Oralite 6900 Brilliant Grade Microprismatic Red (030) R3B with 7510 RA Fluorescent Yellow Non Reflective Rapid Air

ORALITE® retroreflective films series 6910 Brilliant Grade are highly reflective, weatherproof, self-adhesive films with excellent corrosion and solvent resistance. The product was especially developed for the manufacture of traffic control, guidance, warning and information signs, which are intended for long term vertical outdoor use.

Nikkalite FEG Flexible Engineering Grade with Nikkalite Hi-Scal Fluorescent Yellow Non Reflective

Nikkalite® Flexible Crystal Grade is a flexible microprismatic retroreflective sheeting designed for emergency vehicle and fleet liveries.

Oralite 5200 Rapid Air with 7510 RA Fluorescent Yellow Non Reflective Rapid Air

ORALITE® 5200RA Economy Grade is ideal for short-term outdoor use for which a minimum of retro-reflection is required. The smooth surface shows scratch resistance and impact strength, and very good printability.

It provides excellent adhesion on metal as well as painted surfaces. It is designed for an easy and bubble free application.

All products are supplied with full manufacturer warranties. If we provide a fitting service as part of your order, we will offer the same warranty on the fitting as we give for the materials shown above (for use on vehicles only). This is supplied as part of our complete convertor warranty package.
