Ensuring your vehicles stand out

Maximum performance from vehicle marking solutions require high reflectivity, permanent adhesion to the vehicle's body work and an edge sealed product to prevent the ingress of water and dirt. That's what you get when you order any emergency vehicle kits through Fleet ID Limited. We are an approved and trusted converter for 3M, Nikkalite & Orafol Reflexite Materials. Using an approved converter of reflective materials is the only way to ensure the long life of your livery, and preserving the public image of emergency service vehicles. At Fleet ID Limited we provide the total solution for your needs whether it be full kit requirements or accident damage replacement panels. Emergency service vehicles can now also be supplied as semi permanent solutions on magnetic or removable materials.

We can provide every part of your emergency conspicuity requirements:

The kits we supply to you can also include:

- Rear chevron kit
- Side batternburg markings
- Printed reflective markings
- Vinyl lettering
- Printed logos
